
Patent Mill Wheels.

Timbey's Patent
Two Vent Cast Iron Water Wheels.
—for—
SAW MILLS,
Invented by T. R. Timbey of Cato N. Y.

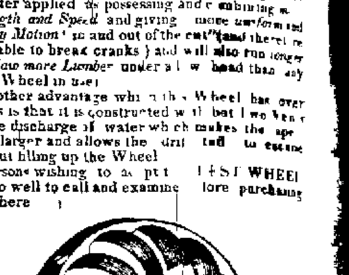
THE undersigned would invite the attention of the Public to the above named WHEELS which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them, with the same head and quantity of water applied, as possessing and combining *Strength and Speed* and giving more uniform and *Steady Motion* in and out of the cut (and therefore not liable to break cranks) and will also run longer and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but two vents for the discharge of water which makes the apertures larger and allows the drift [illegible] to escape without filling up the Wheel.

Persons wishing to a[illegible] BEST WHEEL will do well to call and examine [illegible] before purchasing elsewhere.



We would also call the attention of Mill Owners and Operators to

Valentine's Patent
Reversing Centrifugal Water Wheel
—FOR—
"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel for perpendicular Shafts now used.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A. BEARD Esq *Civil Engineer*—Lowell Mass who is well known as one of the most Scientific and experienced practical Engineers in this country.

"This wheel is formed with curved floats [illegible] number depending upon the size and [illegible] of the Wheel each extending so far around the Wheel that when the water arrives at the jet [illegible] is so far expended that it falls very nearly [illegible] from the Wheel. The Wheel is enclosed [illegible] cylindrical wooden curb or flume in which the water stands at its full head the column being sustained by the stationary plate underneath the Wheel, so that it has no downward pressure upon the Wheel which stands perfectly free in the column of water and by this arrangement all the friction on the top and bearing of the Wheel is avoided and so much of the power saved which in the ordinary mode of operation is wholly lost.

This Wheel is adapted to low as well as high heads of water and will run as well in back water as out of it, providing the head rises in a freshet as fast as the back water. But a Wheel with the jets rightly guaged for a high head will not answer for a low one, and vice versa, for as the head increases, the width of the jets should be proportionably decreased so that the water may not issue to waste and not give its best effect to the Wheel.

"In point of power the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless, is less liable to need repairs, easily accessible when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop—Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel."

ITHAMAR A. BEARD *Civil Engineer*

Important Letter,

Messrs Curtis & Smith:

Dear Sirs,—I herewith enclose you a few lines relative to your 'Down's Elixir,' which, for the benefit of the suffering, if you think worthy, you are at liberty to make public. About a year and a half ago my [illegible] then became sick so that in a short time we began really to fear for her life. Her symptoms were bad cough, pain in the side and stomach, night sweats and other premonitory signs of pulmonary consumption. We [illegible] our best physicians who [illegible] her case incurable. Her consumption [illegible] her she became weaker and the symptoms more confirmed.

At this time at the suggestion of a friend we concluded to try D[own's Elixir]. Having procured a bottle from your agent, [illegible] she commenced taking it. At first it seemed to [illegible] but in a short time her health [illegible] rapidly, to my great [illegible] It cured her cough, relieved her night sweats, and greatly improved the tone of the whole system.— After having continued [illegible] of the same for nearly a year she can [illegible] able to go about the house as usual. Under God we believe that to Down's Elixir alone she owes the preservation of her life and the restoration of former strength and energy.

We have also used it in our family in other cases for which it is recommended in the pamphlets with universal success. Yours truly,

(Signed) SWAIN P. NORDSTROM.

The above is only one of a thousand similar letters which we are constantly receiving from all parts of the country, almost daily.

DOWN'S ELIXIR is unquestionably the best article known for the cure of COUGHS, COLDS and CONSUMPTION. It is more certain to give relief in all cases of ASTHMA—often a perfect cure—than any thing hitherto offered to the public.

In cases of WHOOPING COUGH it needs only to be tried to give it preference over all other [illegible] It immediately breaks up the cough [illegible] renders a mere play thing what is otherwise a dangerous and terrible [illegible] CROUP it is a perfect cure! We speak with confidence, for it has never failed and we believe never will when used according to directions.

The Graefenberg Company

HEREBY give notice that their *New England Branch* is established at No. 151 Washington street, Boston, the Secretary of which is Mr. [illegible] HARRIS, who is prepared to appoint Sub Agents for the sale of their celebrated MEDICINES. Application should be made either personally or by mail post paid. *The Graefenberg series of Medicines* consists of the following preparations—to which public attention is invited.

The Graefenberg Vegetable Pills, which are inconceivably superior to any ever before discovered. All *Chronic Diseases, Bilious and Bowel Complaints, Costiveness, Dyspepsia, Fever and Ague, Headache, Jaundice, Liver Complaints, Rheumatism, all Stomach Complaints, Green Sickness,* etc. yield at once to these pills. They purge away offensive humors, arrest the progress of disease, and at the same time restore tone and vigor to the system. In cases of general derangement of the health they are SOVEREIGN.—Price 25 cents a box.

The Graefenberg Children's Panacea. This is a Medicine which should be in every family. In all diseases to which children and youth are subject, and for *Summer Complaints, Dysentery* and all other affections of the stomach and bowels it is infallible. Price 50 cents a bottle.

The Green Mountain Vegetable Ointment.—This is an Indian remedy, the recipe for which was obtained by one of the early settlers of Vermont from the Indians. It is an invaluable dressing for *Burns* and *Scalds* and by its use all bruises and fresh cuts/wounds are cured with great rapidity. Price 25 cents a box.

The Graefenberg Sarsaparilla Compound.—This unequalled extract is immeasurably superior to any Sarsaparilla preparation now offered to the public. One bottle of it is warranted to make two quarts of the strength of ordinary [illegible]. Price one dollar a bottle.

The Graefenberg Eye Lotion, which for disorders of the Eyes has no equal for violent inflammation, weakness, or foreign substances in the eye. It is positive and speedy cure. Price 25 cents a bottle.

The Graefenberg Health Bitters.—These Bitters stimulate the stomach, promote tardy digestion, impart tone and elasticity to the feeble body and exert their salutary energies with surprising rapidity. Price 25 cents a package.

TO THE AFFLICTED.

DR. DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame, at his office

No. 55 Union Street.

Dr D has been in extensive practice in all parts of the United States and has now in his possession the best of evidence to show that he is a regular M. D. He has been upwards of [illegible] years in practice. The diseases of females will receive the Dr's particular attention. He will tell all the diseases from an examination of the eye. This is an advantage that Dr D has above all other practitioners and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient of the disease with which they are afflicted. The age and length of time the patient has been suffering is all the Dr. will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr. D has been very successful in the treatment of Colds, Coughs, Consumptions and all other Complaints, all Pulmonary diseases, Scrofula, Rheumatism, Piles, Dysentery, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, Cutaneous diseases, and all affections of the kidneys and bladder. Tic Doloreux, Hernia, Abdominal Weakness, Toothache, Intemperance, Stammering. Dr. D. warrants a cure of any of the above diseases if applied to in season.

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8 to 12 AM and from 2 to 9 P M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package.

All communications (post paid), with a fee enclosed, will be strictly attended to.

Remember the number—55 Union Street.

WHIG NOMINATIONS.

FOR PRESIDENT

GEN. ZACHARY TAYLOR.

FOR VICE PRESIDENT,

MILLARD FILLMORE.

FOR GOVERNOR

ELIJAH L. HAMLIN.

Penobscot and Piscataquis Congressional Convention.

THERE will be a Convention of the Whigs of the *Congressional District*, composed of Penobscot and Piscataquis Counties, at EAST CORINTH on *THURSDAY the 17th day of August next*, at 11 o'clock, A M, for the purpose of nominating a candidate to represent said District in the next Congress.

Towns having 1000 inhabitants and under, two delegates, over 1000 and under 2000 four, over 2000 and under 3000 six, over 3000 and under 5000 ten, and over 5000 fifteen. The census of 1840 to be taken to determine the number of inhabitants.

It is hoped that every town will be fully represented. *Per order of Committee.*

July 11

☞ ***The Washington Union is out against GEN. TAYLOR because he is pledged to yield his assent to the doctrines of the Wilmot Proviso, and is pledged not to resort to the Presidential Veto against it, if the people shall constitute a Congress that shall enact those doctrines into a law.***

☞ ***"I do not desire the presidency, and only consent to be a candidate in the same proportion in which it is desired by the people irrespective of party; and he that cannot be trusted without pledges, cannot be trusted with them. I have no private purposes to accomplish—no party projects to build up—no enemies to punish—nothing to serve but my country."***

ZACHARY TAYLOR.

☞ ***"If the enemy oppose my march, in whatever numbers, I shall fight him."—GEN. TAYLOR at the battle of Palo Alto.***

"Keep it Before the People."

At the Utica convention of Barnburners that met in February last, the following resolution was reported by a committee of which JOHN VAN BUREN WAS A MEMBER, and unanimously adopted

Resolved, That Gen. ZACHARY TAYLOR *by his masterly correspondence* with the War Department no less than be his heroic conduct and indomitable coolness and courage on the field of battle, has shown himsel to be not only a distinguished military chieftain but *a man of great mental and moral power*, and whose life has given evidence of a *strong head, an honest heart, and a Republican simplicity of character*.

Katahdin Iron Work's Village.

We are informed by a correspondent that the proprietors of the Katahdin Iron Works, in Piscataquis County are now selling building lots in their village, and also selling lands in the neighborhood.

He states that the manufacture of iron at these works is now permanently established.— The furnace has been so improved as to be capable of turning out nine or ten tons of iron per day The company are now erecting an extensive foundry for remelting the iron As a very considerable village must inevitably grow up in this advantageous and beautiful location, all the branches of business, carried on in our New England towns, can be advantageously pursued here It therefore offers many inducements to mechanics and enterprising men desirous of trying their fortunes in a new place

The advantages to settlers on the farming lands are peculiarly great The land is good— All the expense of clearing the land, the great drawback to the new settler, can be paid for by the coal and wood obtained from the land in clearing, for which there will be a ready market

As the great supply road to the Chesuncook and Chamberlain Lakes starts from this place, the lumbering operations in the back woods will cause a ready and profitable sale for all the hay and grain which can be raised in this place There is no market in the State better, except in the vicinity of the cities There is another advantage to the settlers in this place The labor will be always in demand for chopping wood, coaling or manufacturing Iron Their teams may be employed in the winter in hauling iron, or supplies, into the woods

☞ As there are more deserters from the American army in Mexico than are required for the ranks of the Legion it is proposed to incorporate a portion of them into the police of the city of Mexico These deserters are evidently a main stay of the Government—a kind of Swiss Guard which promise to be very serviceable if they will but adhere to the administration

☞ The fire companies of Hallowell, Augusta Gardiner, Pittston, Vassalboro, and Readfield celebrated the Fourth at Hallowell where an oration was delivered before them by John T Dumont. The procession, which consisted of nine hundred stout able bodied young men, in appropriate uniforms, was the most brilliant show which had ever been witnessed in the neighborhood.

☞ The persons confined in the city prison at Washington for abducting slaves were to be brought on trial this week They were to be defended by Horace Mann and other Nothern lawyers.

SEVEN DAYS LATER From Europe.

Russia preparing for War.

Defeat of the Italian Army by the Austrians.

The Boston Journal and Boston Traveller have shown their enterprize in procuring the foreign news by an express from Halifax N S, in advance of all contemporaries and in sending it to New York with the Caledonia was bound, in advance of her arrival there

The first report of the Secret Committee of the House of Commons, appointed to inquire into the recent commercial distress and how far it was affected by the Bank Act of 1844 have made a report Upon a careful review of all the evidence, the Committee came to the conclusion that it is not expedient to make any alteration in the law of 1844

Large amounts of specie are flowing into England The West India steamer brought $800,000 from Vera Cruz A Government steamer was daily expected from the Pacific with $2 200,000

IRELAND

During the suspension of the sittings of the Irish Confederation and the meetings at ... agitation has been ... The adhesion of the Bishop of Meath, and several other prelates to the new Irish League for which ground for support ... that Mr John O Connell's cause will ... that, in whatever combinations ... the present reorganization may eventually result ... will still play a conspicuous part and exert as heretofore, a secret influential power In the course of a week or two it will be seen whether the new Irish League can be set upon a footing that will enable the moral force party to combine and act, with the more violent physical force leaders— Unless Mr John O Connell can bring into the scale some equipoise ... power equal to the 'Sword,' we fear that an harmonious action cannot long be maintained between the high contracting parties, who are preparing the new scheme of agitation.

In the meantime the organization of clubs is proceeding to an alarming degree In Dublin, alone, it is stated that there are 40 clubs each consisting of 300 members, making an aggregate of 12 000 men, who are accustomed to assemble, at least once a week for the avowed purpose of being trained and disciplined

FRANCE

The state of the country—The French people ... still in a transition state The same degree of anxiety and alarm exists respecting the future although the threatening aspects of affairs which prevailed last week has in some degree worn away, in consequence of the restraints ... tendered by ... Buonaparte of his seat in the National Assembly In the meantime the Executive Government has its authority and influence daily ... the finances are in a most deplorable condition, the prevalence of a state of great distress, increased taxation and diminished resources both affecting all the people and the Government, are fast bringing on some frightful catastrophe, and the eventful issue of the mighty revolution of February remains still one of the impenetrable mysteries of the future

In the provinces the most frightful distress prevails, and the peasantry—in the very heart of the country, as well as at the extreme ... resist the payment of the increased taxes with arms in their hands, and blood has been spilt in many of these conflicts

The office of President of the Republic is already an subject of intrigue Six candidates are already in the field M de Lamartine M Thiers Prince Louis Buonaparte, M Marrast General Cavaignac, and M Changarnier ... Prefect of ... The Orleans party will support M Thiers and M Berryer has declared in his favor The legitimists are divided be tween Thiers and Lamartine If the election were ... take place ... Louis Bonaparte would be the successful candidate

Further advices have arrived from LA Creuse The ... all the dominances in the ... of the 15th ... next in rising The peasants formed a most ... RUSSIA

Advices from the Danube announce that a Russian army of thirty thousand men had entered Wallachia It is asserted that the Emperor Nicholas contemplates ... all the peasants ... Poland, although this ... with two hundred thousand troops ... the Emperor, who is said to spend whole days and nights watching the telegraphs now established as far as Warsaw and the frontiers of Prussia

There can be no doubt that large Russian armies are ... at different points between Thiat and Cracow and other, in conjunction with the appearance of a Russian fleet in the Baltic show that the Czar is inclined in certain case to act with decided hostility against Germany

In the Breslau journals of the 16th ult, it is stated that the whole Baltic is covered with Russian men-of-war The whole western frontier of the Russian empire bristles with bayonets The troops advance towards Lithuania and Volhynia by forced marches The ... force of the Emperor Nicholas stands already on the river Pruth ready at any moment to march into Moldavia, and of course into Wallachia

NORTHERN ITALY

The intelligence from the seat of war possesses considerable interest, as it indicates a change in the plans of Marshal Radetsky, who is stated to have left only 6000 men in Verona, while he himself marched on Vicenza with the remainder of his disposable forces, variously estimated at from 20 to 25 000 men. During the night of the 9th inst, the position of Rivoli which the Piedmontese appear to have been preparing to attack, was abandoned by the Austrians, who retired to the left bank of the Adige, and the bridge was broken down On the 10th inst the position of the Rivoli was occupied by the Sardinians, and it was expected that the King would take measures to cross the Adige, and commence operations against Verona Letters dated the 12th from the headquarters of Charles Albert, stated that a small body of 600 men had passed across the Upper Adige, above Rivoli, at Peri, and that a bridge was on the point of being established The magazines and depots which had hitherto remained at Vallegio, were ordered, on the 12th, to be advanced to Villa Franca. The headquarters remained at Vallegio, but a general advance of the whole Piedmontese army was hourly expected to take place Meanwhile the Austrians made arrangements for an attack on Vicenza, and an action ensued between them and the Italians, under General Durando, which terminated in favor of the Austrians Private letters from Milan, of the afternoon of the 13th instant, announce the surrender of Vicenza to the Austrians on the 11th, by capitulation The troops composing the garrison marched out with the honors of war and were permitted to retain their arms on condition that they should not serve against the Austrians for three months The Italia del Popolo of the 13th inst confirms the news of Vicenza overpowered by the overwhelming force of the Austrians who after a very brief delay marched upon Padua which city has also been compelled to capitulate

General Pepe holding the place incapable of being protected, capitulated, and retired to Ferrara

Accounts from Venice dated the 13th inst, state that the Army had brought the report of General Welden respecting the surrender of Vicenza According to these accounts the ... troops in pursuance of the capitulation were to withdraw behind the Po The loss of the Italians in the attack on the city, amounted to about 1800 or 2000 killed wounded, and prisoners, while the loss of the Austrians did not exceed 2000 killed and wounded including Major General ... the Prince of Saxe who was killed General Welden, with 8000 men, had advanced to Treviso on the 12th

The King of Sardinia arrived on the evening of the 10th inst, at ... the part with ... to ... members of the Provisional Government of Milan for the ... by the King ... Sardinia The Provisional Government ... to be abolished and a kind of regency ... those and Milanese ... M Casati ... as ... president, will for the present be established at Milan.

The Italia del Popolo, of the 13th, announces that a Sardinian subaltern ... possession of some parts of the Lombardy ... ... that he is acting under the orders ... from and the ... Lombardy ... become fixed ...

From Mexico.

A Mexican gentleman now in this city whose means of obtaining information from Mexico are of the first order, furnishes us with the following items of news from that Republic

[N O Crescent

The State of Tobasco is harrassed with Indian insurrection, the object of which is the extermination of the people, of reason and civilization Emigration has commenced and a panic terror has taken possession of the white race Poor Tobasco! She is following the same track as Yucatan

At Vera Cruz a representation has been made to the Government, praying that on no condition ... the troops of the line be permitted to enter that city, offering to protect the coast with the National Guard, which is not yet organized

In the city of Mexico, a horrible ... prevails and it appears that open discord reigns there menacing the Cabinet of Herrera with a speedy fall

The protest against the Treaty of Peace made by the Deputies of Tamaulipas New Leon and other States to the number of nine has been adopted with ardor by the people This proves that the period is not remote when Mexico will be dismembered into small Republics

Paredes is progressing and the love of the Republican system favors the fall of the present Government Paredes will overthrow Herrera, and the result will be as before, the restoration of Santa Anna as Dictator

These, and other subjects which cannot be dilated on, without exasperation are sufficient to incline the commiseration the most determined enemy of the country

Whipping and Selling Poor White Men and 'Stubborn Servants'

The men who are now supporting Gen Cass denounced Gen Harrison in 1840 for signing certain vagrant laws at the time he was Governor of Indiana Circulars and handbills were circulated throughout the land, alleging that Gen Harrison was for 'selling poor neighbors white men into bondage'

Now let these men, observe their consistency by unbottling their denunciation against Gen Cass for signing and approving the following law

AN ACT *for the punishment of idle and disorderly persons*

Sec 1 Be it enacted by the Governor and Judges of the Territory of Michigan, that any Justice of the peace on conviction, may sentence any vagrant lewd idle or disorderly person, stubborn servants common drunkards ... night walkers pilferers, or any person wanton or *licentious in speech*, indecent in behaviour common railers or brawlers, such as neglect their calling and employment, misspend what they earn and do not provide for themselves or families *to be whipped not exceeding ten stripes*, or to be delivered to labor not exceeding three months by such constable to be hired out for the best wages that can be procured the proceeds of which to be applied to the use of the poor of the county

Made, adopted and published at Detroit, the 27th day of July, 1818 LEWIS CASS

Governor of the Territory of Michigan

A B WOODWARD

Presiding Judge of the Territory of Michigan

J WITHERELL,

JOHN GRIFFIN,

Judges of the Territory of Michigan

By the above it seems that Gen Chas, made adopted and published a law for *whipping stubborn servants* and others, and *selling them* for three months, *at constable sale*

Gen Taylor's Principles seems to trouble our opponents greatly We think they are sufficiently prominent to suit every body Here is a cluster of them—"I am a WHIG"—Palo Alto, May 8, 1846 "Had I voted in 1844 I should have voted for HENRY CLAY" Resaca de la Palma May 9, 1846 If elected he will administer the government as did GEORGE WASHINGTON—Monterey—Buena Vista—and to oblige Secretary MARCY, we will add Æsop's Fables

☞ The Agent of the Rothschilds in the city of Mexico, has bought a number of Mules and wagons, belonging to the United States at the following price $500 for each wagon and four mules attached thereto

Peace with Mexico.

The Treaty of Peace with Mexico appears in the Washington Union of Thursday

WASHINGTON, July 7

President's Message—The Peace Message of the President says, that Mexico caused the war, and that our success will prevent war for years to come

It says that the war was conducted humanely, moderately and magnanimously, and that Congress must meet the payments agreed upon and appoint line surveyors, and that the United States has paid three millions down The President cannot estimate the value of territory acquired, but the Pacific trade, which is now forty millions, will be much increased The message recommends grants of lands to settlers, and that the army raised for this war be disbanded

It recommends the filling up the regiments in the regular force, and the retaining a few staff officers.

It recommends to extinguish the public debt seventy millions quickly, taking the Treasury surplus to purchase public stock. It repudiates a government policy in relation to the debt of the last war

The Providence Outrage.

The Providence Journal furnishes the following particulars concerning the outrage in that city

On Monday night, at half past 12, an atrocious attempt was made to blow up the house of Messrs Mann with gunpowder The powder was contained in a tin ok sheet-iron canister, about 24 inches long and 9 in diameter, placed on the sidewalk close to the house—possibly between the houses, but probably not—and was exploded by a fuzee It is supposed that the quantity of powder employed was about ten pounds The concussion was heard all over the city It broke in the walls of the house, shattered the windows of the sashes, knocked down the furniture and broke many articles of light and fragile construction The damage was not confined to the building on which the miscreant directed his vengeance All the houses in the vicinity were more or less injured Pieces of the canister were thrown with great force and imbedded in the opposite building— The drug store of M John H Taylor was entirely ruined

The Mayor and Aldermen have offered a reward of $1000 for the detection of the perpetrator, in addition to the offers of reward, ... the ... upon the citizens upon the matter

A Thrilling Incident.

In the course of the Hon R W Thompson's remarks at the Baltimore Ratification Meeting he asked

"What has ol Zack done?" Here a voice in the crowd replied—"I'll tell you what he has done— About two weeks ago I stopped at Gen Taylor's house and he received me in the most cordial manner gave me an entertainment and a good feather bed to sleep in and in the morning ten dollars to pursue my journey"

Mr Thompson inquired of the person speaking what he was to which he replied that he was a ... soldier ... returning from the army in Mexico This incident created great enthusiasm among the crowd of listeners and was ... to the ... of ... Mr ... of the goodness of heart and kind feelings of Gen Taylor

ASTHMA CURED BY DR JAYNE'S EXPECTORANT.

Dr Jayne—Dear Sir—By the blessing of God, your Expectorant has effected a cure in me of a most distressing complaint In December last I was seized with great severity by a paroxysm of ASTHMA, a disease with which I had been afflicted for many years past It was attended with a hoarseness and soreness of the lungs and throat, together with a laboring cough, and complete prostration of strength and worn out with suffocation— when a bottle of your Expectorant was sent to my house At first I thought it was nothing but quackery but on being it was so highly recommended by Dr Guing, with whom I was well acquainted I was induced to try it, and in a few days I completely cured me nor have I ever had any return of the disease since I have so high an opinion of your medicine, that if I had but a few bottles of it, and could obtain no more I would not part with them for ten dollars each

Yours, most respectfully,

JOHN BEGSR,

Pastor of the Baptist Church at Lambertville, N.J.

From the Somerville, N J Whig

Something more ... upon Mr P Mason, of Somerville ... Dr Jayne's celebrated Hair Tonic, to restore my hair which was then falling out daily I procured one bottle, and applied its contents according to the directions When the bottle was exhausted, I discovered to my great surprise and satisfaction that the Young Hair was starting handsomely, I therefore purchased another, and on using it I had used three bottles, and now, as a compensation my hair is as thick as ever

And what is more surprising, my baldness was not occasioned by sickness, in which case there is greater hope of restoration—but was hereditary

BEWARE OF IMPOSITION.

The greater the value of any discovery, the higher it is held in the esteem of the public, and so much in proportion is that public is liable to be imposed upon by the spurious imitations of ignorant designing and dishonest men who, like the drone in the hive have neither the ability nor inclination to think or provide for themselves, but thrive and fatten on the earnings of the deserving

The extraordinary success attending the use of this medicine in diseases of the lungs, and the many similar cures it has effected have naturally attracted the attention of many physicians as well as the whole fraternity of quacks—and caused unprincipled counterfeiters and imitators to palm off spurious articles of similar name and appearance for the genuine Balsam Some are called "Syrup of Wild Cherry and Tar" "Cherry Syrup" "Compound Syrup of Wild Cherry" "Wild Cherry Compound" and sundry other compounds to which they attach a long string of puffs But Feach Imitations we know nothing It is WISTAR'S BALSAM OF WILD CHERRY the one that performs the cures Let them not deceive you

None genuine unless signed I BUTTS on the wrapper

For sale wholesale and retail by GEO W LADD, Bangor Sold also by dealers generally throughout the State. 3mdw jy10

Bloomsburg, Columbia Co

Dr William Wright—Dear Sir—I am one of the many whose aversion to quack medicines has deprived them of the benefit resulting from the use of all good medicines Acting under these feelings I have seldom resorted to the Pills [illegible] you commenced advertising [illegible] I was induced to give your Indian Vegetable Pills a trial and after having fairly tested their merit for myself and family [illegible] decided preference over every other preparation

In every instance when afflicted with sick head ache, or when the [illegible] was [illegible] with morbid humors [illegible] promptly relieved in the use of your Pills By taking from one to [illegible] going to bed when ill [illegible] have always been restored to health, with [illegible] without the expense of a physician Wright's Indian Vegetable Pills possess the [illegible] merit of operating effectually without disturbing the rest of the patient and in my case, without producing even sickness at the stomach

Respectfully, your friend &c
LEVI L. TATE

(From the Delaware Express, Delhi N Y)

WRIGHT'S INDIAN VEGETABLE PILLS—Although not particularly friendly to patent medicines we must confess that we [illegible] [illegible] [illegible] of these pills having [illegible] [illegible] opportunity [illegible] one or two occasions to test their efficacy [illegible] [illegible] one or two will [illegible] mild though effectual Where there is [illegible] [illegible] lated, and more than [illegible] [illegible] required a dose of three or four of the pills taken on going to bed will be found effectual in cleansing the stomach and restoring the bowels to a healthy state We speak [illegible] [illegible] and take pleasure in commending the pills to the public

Look out for Counterfeits!

Some are [illegible] with sugar others are made to resemble, in outward appearance the original article The safest course is to purchase from the agents only one or more of whom will be found in every town and county in the State

Rahway, Jan 25, 184[illegible]

A year since I was taken with the influenza and my whole system left in a debilitated state I was induced to try Dr Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attribute it entirely to the said Sarsaparilla I have continued taking it, and find that I improve every day I believe it saved my life, and would not be without it under any consideration G W McLEAN

Patent Mill Wheels

Tinbey's Patent

Two Vent Cast Iron Water Wheels

—for—

SAW MILLS,

Invented by T R. Timbey of Cato N. Y.

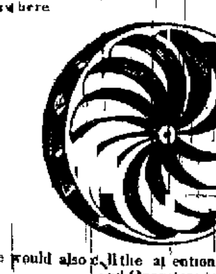
THE undersigned would invite the attention of the Public to the above named WHEELS which have been thoroughly tested in Competition with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them, with the same head and quantity of water applied as possessing and *obtaining more Strength and Speed*, and giving a more *uniform Steady Motion* in and out of the cut (and being not liable to break cranks) and will also run and *saw more lumber* under a low head than other Wheels in use

Another advantage which this Wheel has over others is that it is constructed with but little for the discharge of water which makes it [illegible] larger and always the water [illegible] [illegible] without filling up the Wheel

Persons wishing to adopt the [illegible] will do well to call and examine before purchasing elsewhere



We would also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

WHICH are adapted to driving all kinds of Machinery in Manufacturing establishments or Mills and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use we feel confident in recommending them as combining more advantages than any other Wheel for perpendicular Shafts, now used

As evidence of the merits of this Wheel we would refer to the following extract from the report of experiments made with them by HEZEKIAH A. BEARD, Esq , *Civil Engineer* —Lowell Mass who is well known as one of the most scientific and experienced practical Engineers in this [illegible]

This wheel is formed with curved floats the number depending upon the size, and vertical Wheel each extending so far around the Wheel that when the water arrives at the jet its pressure is so far expended that it falls very nearly dead from the Wheel The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head the column being sustained by the stationary plate and sheathing the Wheel that has no downward pressure upon the Wheel which stands perfectly free in the column of water and by this arrangement all the friction on the step and bearing of the Wheel is avoided and so much of the power saved which in the ordinary mode of erection is wholly lost

This Wheel is adapted to low as well as high heads of water and will run as well in back water as out of it providing the head remains the same so far as the back water But a Wheel with the jets fully gauged for a high head will not answer for a low one, and vice versa for as the head decreases the width of the jets should be proportionably decreased, so that the water may not have to waste and not give its best effect to the Wheel

In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worth [illegible] is less liable to need repairs easily accessible when they are needed costs much less in the outlay, is much more durable, and takes very much less room in a mill in shape—simplicity of structure, durability [illegible] convenience of application and excellence [illegible] power are the grand points of recommendation for this Wheel

HEZEKIAH A. BEARD, *Civil Engineer*

Important Letter.

MESSRS CORT[illegible] & SMITH

Dear Sirs —herewith enclose you a few lines relative to your "Down's Elixer," which, for the benefit of the suffering, if you think worthy you are at liberty to make public About a year and a half ago my mother became sick, so that in a short time we began greatly to fear for her life Her symptoms were, bad cough, pain in the side and stomach, night sweats, and other premonitory signs of pulmonary consumption We consulted our best physicians, who gave her little or no relief, and finally pronounced her case incurable consumption She continued to become weaker, and the symptoms more confirmed

About this time, at the suggestion of a friend, we concluded to try Downs' Elixer Having procured a bottle from your agent (S R Byram, of Eastport) she commenced taking it At first it seemed only to mitigate the severity of the symptoms, but in a short time her health began evidently to improve; It cured her cough, relieved her night sweats, and greatly improved the tone of the whole system — After having continued its use most of the time for nearly a year, she calls herself cured She is now able to go about the house, and superintend affairs as usual Under God we believe that to Downs' Elixer, alone she owes the preservation of her life and the restoration of former strength and energy—We have also used it in our family in other cases for which it is recommended in the pamphlets with universal success Yours truly,

(Signed) SWAIN P NORDSTROM

The above is only one of a thousand similar letters which we are constantly receiving, from all parts of the country, almost daily

DOWNS' ELIXER is unquestionably the best article known for the cure of *COUGHS, COLDS* and *CONSUMPTION* It is more certain to give relief in all cases of *ASTHMA*—often a perfect cure—than any thing hitherto offered to the public

In cases of *WHOOPING COUGH* it needs only to be tried to give it preference over all other remedies It immediately breaks up the cough, and renders mere plaything what is otherwise a scourge and terror For the *CROUP* it is a positive cure. We speak with confidence, for it has never failed, and we believe never will, when used according to directions.
